

Measuring the contribution to the sustainable development goals

ACCIONA has analysed the indicators that, in view of its activity, are most relevant and have the greatest impact on the targets included in each SDG. Furthermore, each country's needs in terms of the SDGs have also been

assessed based on the information contained in the *SDG Index and Dashboards Report 2018*¹⁰.

ACCIONA's contribution is shown below, divided into five regions in which there are still significant or considerable challenges to achieving the SDGs.

FOCUSED ON REAL NEEDS

- SDG achieved
- Significant challenges remain
- Challenges remain
- Major challenges remain

Country	SDG 6	SDG 7	SDG 9	SDG 11	SDG 13	ACCIONA's Contribution
North America	●	●	●	●	●	<ul style="list-style-type: none"> • Contribution to water service access through complete management of the water service in Boca del Río (Mexico) and construction of the North Shore wastewater treatment plant (Canada) (SDG 6). • Contribution to decarbonisation and improving air quality (SDG 11) and to reducing GHG emissions with 5,125 GWh of renewable energy (SDG 7), thus avoiding 3.2 million t CO₂e (SDG 13). • Contribution to improving the technological capacity of industry in Mexico with an innovation figure of EUR 33.3 million (SDG 9).

⁹ Source: CO₂ emissions from fuel combustion 2018 highlights by the International Energy Agency.

¹⁰ Prepared by Sustainable Development Solutions Network (SDSN) and Bertelsmann Stiftung.

Country	SDG 6	SDG 7	SDG 9	SDG 11	SDG 13	ACCIONA's Contribution
South America						<ul style="list-style-type: none"> Contribution to improving infrastructure quality by executing the Rodoanel highway (Brazil), Bello and Cañaveralejo wastewater treatment plants (Colombia), and the Quito Metro (Ecuador) (SDG 9). Contribution to improving the technological capacity of industry with an innovation figure of EUR 41.6 million (SDG 9). Contribution to improving air quality by generating emissions-free renewable energy, avoiding 0.4 million t CO₂e per year (SDG 13).
Europe						<ul style="list-style-type: none"> Contribution to improving the technological capacity of industrial sectors with an innovation figure of EUR 41.1 million (SDG 9). Contribution to new transportation needs in cities through the ACCIONA Mobility electric motorbikes mobility service (SDG 11). Contribution to reducing emissions, avoiding 9 million t CO₂e through renewable energy generation (SDG 13).
The Middle East and North Africa						<ul style="list-style-type: none"> Contribution to available water resources through desalination of 204 hm³ (SDG 6). Contribution to improving the technological capacity of industry with an innovation figure of EUR 17.3 million (SDG 9).
Australia						<ul style="list-style-type: none"> Contribution to decarbonising the electricity mix with 1,077 GWh of renewable energy (SDG 7) and to reducing per capita emissions, avoiding 1 million t CO₂e (SDG 13).

Source of the SDG assessment per region: country assessment in the 2018 SDG Index and Dashboards Report weighted by ACCIONA revenues per country.
